(English Version For Reference)

The General Administration of Customs of the People's Republic of China (GACC) is the competent authority administrating the issuance of Certificates of Origin in China. The issuing bodies include China customs and CCPIT and its local branches (hereinafter refers to as "CCPIT"). To promote the trade facilitation, GACC will start to use electronically Certificate of Origin (hereinafter refers to as "eCO") from March 25, 2019. Differentiated with the tradition paper CO, the eCO is printed on A4 white paper with the following features:

1. The stamp and the signature in Exporter declaration Box and Certification Box on the eCO are printed. Both the eCO (see the attachment) and the traditional paper CO are of the same format and with equal authenticity.
2. The original eCO has anti-copy code. If the original CO is duplicated, the anti-copy code on the eCO issued by China Customs indicates the word "copy", while the eCO issued by CCPIT shows the word "forge".
3. The eCO has QR code. By scanning the QR code, you can get the information on the Certificate and also the verification website. Due to different models of the printers, the shading color of eCO and the anti-copy code effect will be different one from the other, but it shall not affect the authenticity and the accuracy of the certificates. If you have any doubt on the CO, please visit [www.origin.customs.gov.cn](http://www.origin.customs.gov.cn) to check the CO issued by China Customs, and visit <http://check.ccpiteco.net/> to check the CO issued by CCPIT
